INTRODUCTION

The Research Proposal Quarterly Status Report is published quarterly (March, June, September, and December) by the Air Force Office of Scientific Research (AFOSR). It lists all the research proposals received by AFOSR during the past six months along with the action taken (Initiated, Declined or Withdrawn on each report.

The report is divided into two parts. The Institution Index lists proposals alphabetically by institution. This is followed by a more detailed listing by Directorate, and by Program Manager within the Directorate.

PURPOSE

This report is designed to inform other Government sponsoring agencies of the proposals received by the AFOSR and the action taken on these proposals. Readers must keep in mind that declined proposals should not necessarily be considered as scientifically unacceptable; many declinations result from a lack of funds or as a result of special programmatic emphasis.

AFOSR MISSION

The Air Force Office of Scientific Research (AFOSR) is the single manager of the Air Force Defense Research Sciences Program (Program Element 61102F) and the primary Air Force agency for the extramural support of fundamental scientific research. To sponsor and sustain basic research and ensure access to research results in support of the Air Force goals of control and maximum utilization of air and space. The AFOSR is organized under the Director, Science and Technology, Air Force Materiel Command.

AFOSR awards grants and contracts for research in areas of science relevant to the needs of the Air Force. Research is selected for support from proposals received in response to the Broad Agency Announcement originating from scientists investigating problems involving the search for new knowledge and the expansion of scientific principles. Selection is on the basis of scientific potential for improving Air Force operational capabilities, originality, significance of science, the qualification of the principal investigators, and the reasonableness of the proposed budget.

KEY TO READING THE DATA

Title - The title of the research proposal.

Institution - The organization, (e.g., college/university, company) at which the research will be conducted.

Investigator - The Principal Investigators proposing the research.

Type - N indicates a new research effort.

- R indicates a continuation of an ongoing research effort.

Months - The duration of the research proposal.

Received - The month and year in which the AFOSR received the proposal.

Amount - The funds requested of the AFOSR for support of the research proposal.

Status - A = ACCEPTED indicates that the review has been completed and the proposal recommended for funding.

- D = DECLINED indicates the proposal has been reviewed but will not be funded by the AFOSR.

- BLANK SPACE = indicates the proposal is being reviewed.

- W = WITHDRAWN indicates that the proposal submitted was removed from further consideration at the proposer's request.

Program Manager - The AFOSR scientific staff member assigned the responsibility for the technical evaluation of the proposal.

Proposal # - An AFOSR Directorate assigned control number to uniquely identify the research proposal.

Initiate - The proposal has been recommended to the AFOSR Directorate of Contracts for the amount and duration.

Start Date - The recommended date for commencement of the research.

Total Amount - The estimated number of dollars recommended for support of the research effort; the actual amount is subject to negotiation.

PART 1

ADVANCED NONLINEAR CONTROL OF TAILLESS FIGHTERS Rockwell International, Science Center	Cheng J. John	N 12 06/09/95 \$228,671	JACOBS 95-NM-362	
SIGNAL PROCESSING APPROACHES INSPIRED BY THE AUDITORY SYSTEM Univ of Rhode Island	Kumaresan Ramdas	N 36 07/09/95 \$227,758	SJOGREN 95-NM-363	
RESEARCH IN COMPUTATIONAL CONTROL AND OPTIMIZATION, COMPUTATIONAL MATHEMATICS, AND COMPUTATIONAL METHODS FOR SUPERCONDUCTIVITY, ETC. Iowa State University	Gunzburger Max	N 36 14/09/95 \$90,792	SCHRECK 95-NM-364	
TOPICS IN NEURAL NETWORKS, STOCHASTIC AND DYNAMICAL SYSTEMS Oregon State University	Burton Robert	N 36 14/09/95 \$92,908	SJOGREN 95-NM-365	

REPORT DATE 10/23/95

PROPOSAL STATUS REPORT (1 JUL 95 - 30 SEP 95)
AIR FORCE OFFICE OF SCIENTIFIC RESEARCH
DIRECTORATE OF MATHEMATICAL & INFORMATION SCIENCES

TITLE INSTITUTION	INVESTIGATOR	TYPE/MONTHS RECEIVED AMOUNT	STATUS PROGRAM MANAGER PROPOSAL #	INITIATE START DATE TOT AMT
NATURAL LANGUAGE GENERATION BASED ON DESIRED INTENTION Southwest Texas State University	Kaikhah Khosrow	N 12 15/09/95 \$83,976	0 WAKSMAN 95-NM-366	
DETERMINATION OF THE PRESSURE GRADIENT FORCE OVER COMPLEX TERRAIN Univ of Kansas, Center for Research	Tucker Donna	N 36 18/09/95 \$182,033	KROLL 95-NM-367	
STUDIES IN RELIABILITY THEORY AND SURVIVAL ANALYSIS AND IN MARKOV CHAIN MONTE CARLO METHODS Ohio State Univ Research Foundation	Doss Hani	N 24 19/09/95 \$83,503	SJOGREN 95-NM-368	
APPLICATION OF WAVELETS IN SIGNAL PROCESSING, SPEECH RECOGNITION, AND REVERSE ENGINEERING Old Dominion Univ Rsh Foundation Inc.	Li Wu	N 24 22/09/95 \$39,910	SJOGREN 95-NM-369	
THE STRUCTURE AND AMPLIFICATION OF THE 2-DAY WAVE Univ of Colorado	Salby Murry	N 36 22/09/95 \$288,536	KROLL 95-NM-370	
RESEARCH IN NONLINEAR PROBLEMS ARISING IN MECHANICS Univ of Wisconsin	Slemerod Marshall	N 36 27/09/95 \$121,922	NACHMAN 95-NM-371	
OPTIMAL DESIGN OF VERY LARGE-SCALE INTEGRATED NETWORKS USING INTEGER PROGRAMMING & GENETIC ALGORITHMS FOR TELECOM & LOGISTICS AT & T Bell Laboratories - GRP	Nagorka Peter	N 12 28/09/95 \$362,755	GLASSMAN 95-NM-372	
VARIATIONAL DATA ASSIMILATION OF SSM/T, SSM/T-2, AND GOES-8 OBSERVATIONS National Center for Atmospheric Research	Zou Xiao lei	N 36 29/09/95 \$469,750	KROLL 95-NM-373	
ANALYSIS OF DIGI SEISMIC DATA FROM BROADBAND STA & MEDIUM APERTURE SEISMIC ARRAYS IN KAZAKHSTAN FOR DETECT & DISCRIM OF EARTHQUAKES Columbia University	Kim Won-Young	N 24 29/09/95 \$264,004	DICKINSON 95-NM-374
